

HIGHWAY 69 Four-Laning G.W.P.5403-05-00 / G.W.P. 5076-06-00

From the Shawanaga River to 4.8 km north of the Harris River

TEMPORARY ROAD DETOURS

HIGHWAY 529 (FORMER HIGHWAY 69)

During this stage the Contractor will be constructing the connection between existing Highway 69 and existing Highway 529 along with replacing an existing culvert under Highway 69 approximately 200m south of the Highway 69/529 intersection. Highway 529 traffic will not have direct access to Pointe Au Baril. The detour routes during this stage are shown below.

It is expected that the road connection and culvert replacement should take approximately 2 weeks.

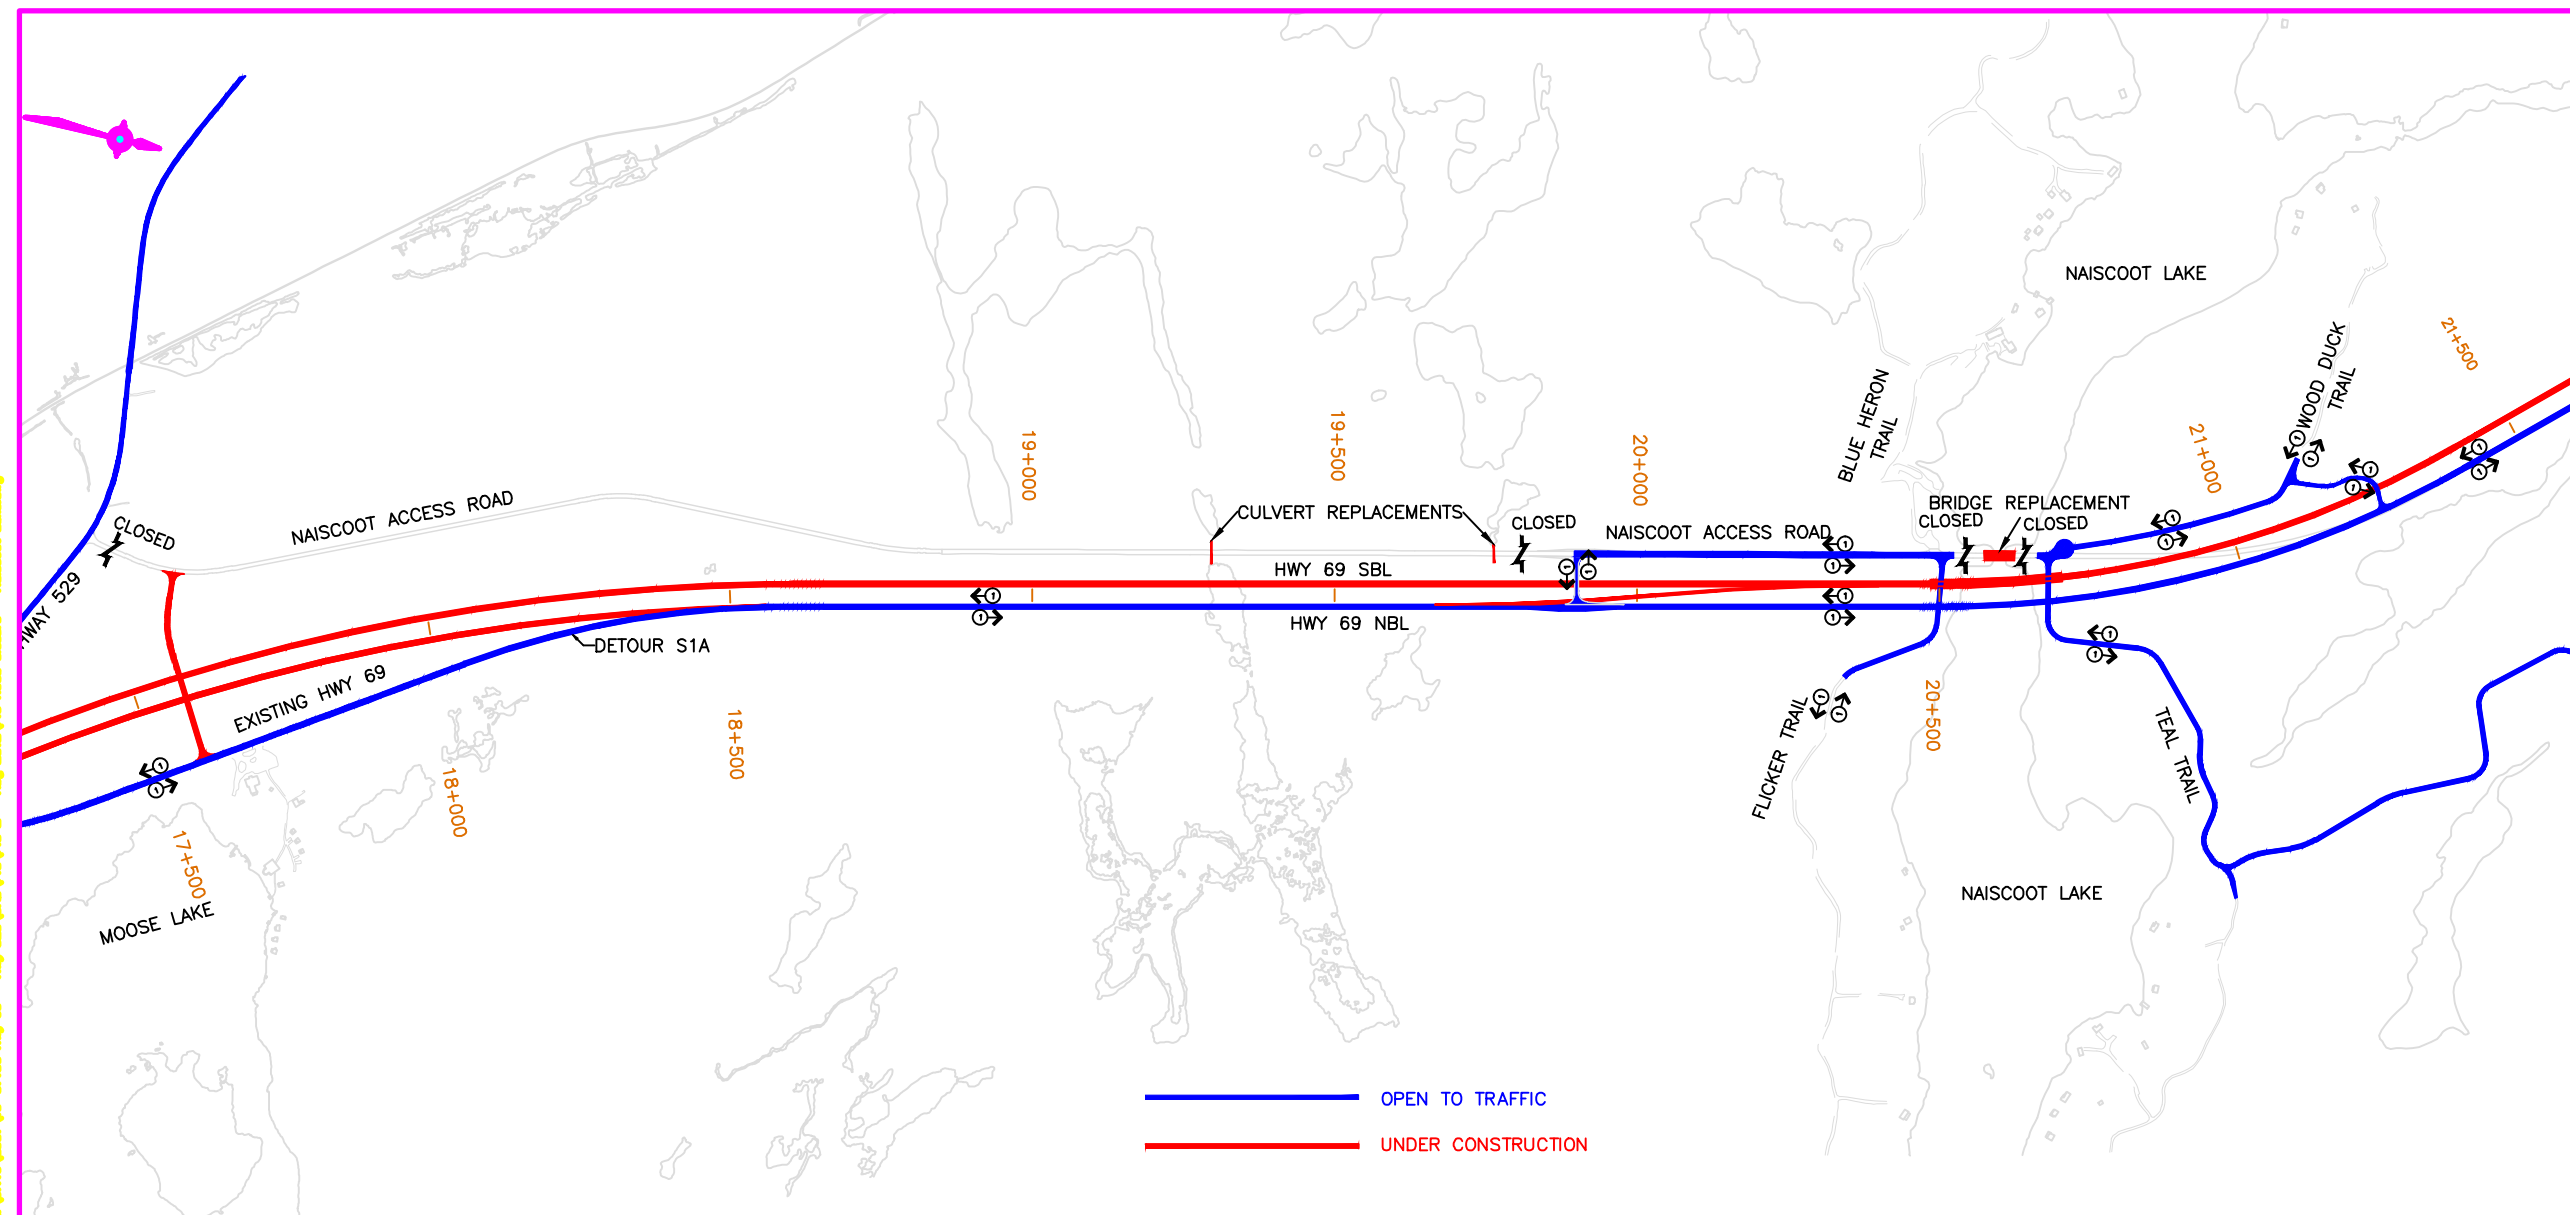

HIGHWAY 69 Four-Laning G.W.P.5403-05-00 / G.W.P. 5076-06-00

From the Shawanaga River to 4.8 km north of the Harris River

TEMPORARY ROAD DETOURS

NAISCOOT ACCESS ROAD AT NAISCOOT LAKE

During this stage the contractor will be replacing the bridge on existing Highway 69 over Naiscoot Lake and replacing two culverts under Highway 69 south of Naiscoot Lake. Highway 69 traffic will be operating on the new northbound lanes and at this point Naiscoot Access Road (existing Highway 69) will be serving the cottage access trails. The detour routes during this stage are shown below.

It is expected that the bridge replacement will take 6 months while culvert replacements should take approximately 1 month.
